Professional Profile

Senior Product Engineer with over 10 years of experience, operating at the convergence of Software Engineering, Product Design, and Artificial Intelligence. Specialized in architecting AI-First solutions and orchestrating multi-agent systems that go beyond task automation to fundamentally empower software delivery capabilities.

My core differentiator is an E2E product vision: I operate from deep discovery, ideation, and prototyping phases through to complete technical implementation. I build the necessary bridge to materialize design concepts into robust, scalable software architectures.

Key Differentiators (Engineering & AI)

- **AI-First Software Delivery:** Focus on AI-driven software development, leveraging multi-agent workflows to boost productivity and create engineering that drastically reduces time-to-market.
- **Product-Minded Engineering:** Translating complex conceptual needs and business strategies into precise technical specifications, ensuring technology always serves the product vision.
- **Probabilistic Hybrid Systems:** Expertise in fusing deterministic logic (traditional code) with probabilistic intelligence (LLMs), creating systems that are creative and adaptable yet maintain the reliability and predictability required in enterprise environments.
- **AI-Accelerated Adaptability:** Advanced use of AI for rapid assimilation of new stacks and technologies. Solid foundation in TypeScript/Node.js for the modern web ecosystem, allowing fluid transition between different application layers.

Technical Skills

- **AI Engineering:** AI-First Development, Multi-Agent Systems (Agentic Systems), LLM Orchestration (OpenAI, Anthropic, Llama), AI Tool Integration in SDLC.
- **Languages:** TypeScript, JavaScript, Python, Go, PHP, Shell/Bash.
- **Frontend:** React, Next.js, Vue.js, Tailwind CSS, Design Systems, UX Engineering, Advanced Prototyping.

- **Backend:** Node.js, Express, FastAPI (Python), Serverless Functions, Microservices.
- **DevOps & Cloud:** Docker, Kubernetes, CI/CD (GitHub Actions), GCP, Azure, AWS.

Professional Experience

Thoughtworks | São Paulo, Brazil | Feb/2022 – Present *Senior Consultant & Full Stack Developer*

- **Nike:** Technical lead in developing internal product platforms, applying AI-First Development principles to accelerate the software development lifecycle.
- **GAP Inc.:** Development of high-performance front-end architectures to handle massive scale and critical demand peaks (Black Friday, Holiday Seasons), ensuring stability and a seamless experience for millions of users with zero timeout for several years.
- Acting as a technical reference in modernizing legacy stacks and providing strategic consulting for integrating Generative AI and Autonomous Agents into corporate workflows.
- Technical mentorship of distributed teams, fostering a culture of quality, automated testing, and engineering excellence.

KoreConX | Toronto, Canada (Remote) | Feb/2021 – Feb/2022 *Strategic Marketing Developer*

- Lead full-stack development of corporate event management platforms and compliance (KYC) systems.
- Implementation of marketing automation and data integration, optimizing the user acquisition funnel.
- Primary bridge between Design and Engineering teams, ensuring high fidelity in UI/UX implementation.

Ramper | São Paulo, Brazil | May/2019 – Feb/2021 *Brand Manager & Tech Lead (Marketing)*

- Hybrid role (Design + Code) ensuring brand identity consistency across all digital touchpoints and web interfaces.
- Creation of internal tools for digital marketing process automation.

Verdadeira Produtora | Co-Founder | Feb/2017 – May/2019

- Technical and creative management of software projects for advertising agencies, focusing on interactive web experiences.

Siteina | Head of Web | Apr/2014 – Feb/2017

- Technical leadership of the web development team, managing projects from conception to deployment for institutional sites and e-commerce.

Education

- Bachelor's Degree in Product Design | FMU | 2012 – 2016

Languages

- Portuguese: Native
- English: Fluent (C1) - Daily experience in international teams.
- Spanish: Basic (A2)
